## **REASON FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: allowance of claims 1-28 is indicated because the prior art of record does not show or suggest a diverter member guiding the second airstream to mix with the first airstream, approximately at the exhaust portion, at a predetermined region outside the oven cavity, wherein moisture carried by the first airstream is carried out through the exhaust portion and away from the cooking appliance as recited in claims 1-2, 9-11; said diverter member extends substantially fore-to-aft. Below the oven cavity and includes a first end portion positioned at a front section of the cooking appliance, a second end portion arranged at a rear section of the cooking appliance, and an intermediate portion interconnecting the first and second end portions as recited in claims 3-8; means for guiding the second airstream to mix with the first airstream, approximately at the exhaust portion, at a predetermined region outside the oven cavity, wherein moisture carried by the first airstream is carried out through the exhaust portion and away from the cooking appliance as recited in claims 12-22; and the step of leading the second portion of the airflow through a diverter member to mix with the first portion of the airflow approximately at an exhaust outlet as recited in claims 23-28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
